

Election/Restrictions

The amendment filed on 23 October 2009 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected species because the claims were originally drawn to the species shown in Figure 7, which contains a stationary cutting mechanism. The newly amended independent claims 1, 21 and 48 are now drawn to a cutting mechanism having an open and closed configuration, shown in Figure 29, 30, 31. This is an independent species because it is mutually exclusive from the originally claimed stationary cutting mechanism. A stationary cutting mechanism cannot have an open and closed configuration.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
